

TO: ALL ARNPRIOR RAPID MANUFACTURING SOLUTIONS, INC. EMPLOYEES
FROM: Christopher W. Howell – Vice President & General Manager
DATE: November 24, 2014

SUBJECT: Arnprior Rapid Manufacturing Solutions, Inc.'s Policy for Compliance with U.S. Government Export Laws and Regulations

It is the company's policy to ensure that the export of product/commodities under the control of Arnprior Rapid is in full compliance with the Arms Export Control Act (AECA) and all export controls in the International Traffic in Arms Regulations (ITAR) which implements the AECA and the Export Administration Regulations (EAR) for all existing Arnprior Rapid's products.

These policies and procedures are maintained by Arnprior Rapid and direct the actions of all Arnprior Rapid's employees.

All items/commodities (product and non-product) and technical data exported from the United States require U.S. export authority through specific U.S. Government export approval, which may include an export license or existing export rights under U.S. export regulations exception or exemption.

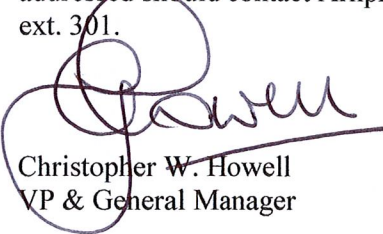

Exports of commodities or technical data emanating from, or controlled by, Arnprior Rapid are to be considered by Arnprior Rapid's employees as falling under the responsibility of Arnprior Rapid.

Our commitment is important because the U.S. Government views the sale, export, and re-transfer of defense articles and defense services as an integral part of safeguarding U.S. national security and furthering U.S. foreign policy objectives.

Employees are directed to ensure that their conduct, as well as the conduct of those who report to them, fully complies with Arnprior Rapid's U.S. Export Licensing and Control Policies & Procedures. As a result any company employee who learns of a potential violation or infraction of these procedures shall report it immediately to the ECO or to appropriate Arnprior Rapid management. Be assured there will be no retribution for employees that report suspected violations.

Questions concerning U.S. export compliance or applicable Arnprior Rapid's procedures for any proposed export transaction should be directed to your supervisor or manager.

Any employee who feels that their inquiry or the potential export compliance issue has not been properly addressed should contact Arnprior Rapid's Export Control Officer, Matthew Licata at extension 514, or me at ext. 301.
