

CNC Lathe Machinists (Setup & Operation)

Arnprior Rapid Manufacturing Solutions, Inc., Rochester/Greece, NY, is recognized as being one of the largest "all under one roof" manufacturing solution centers in the Northeast United States. We develop, and then manufacture challenging custom mechanical components and assemblies for our customers in the medical, consumer, and aerospace industries. As our website, www.arnprior-rmsi.com, will confirm, seldom is a job assignment the same.

We recognizes the importance of recruiting and maintaining the best talent. Therefore, we offer a minimum of the following benefits:

- 200,000 square feet of a clean facility
- Air-conditioned work space
- Competitive pay
- Excellent Benefits Package, including a 401K Company Match

The chosen machinists will work with their team and independently perform high-tolerance prototype and production-style machining using GD&T and in-process inspection methodology.

Minimum Job Requirements:

- Experience programming and setting up CNC lathes for both prototype and production
- Strong understanding of GD&T
- Desire to work with Engineering Department on machining development
- Knowledge of ISO 9000 and AS9100 preferred
- Mill-turn experience helpful

This is an excellent opportunity for those who have a high regard for the trade, enjoy new challenges, and are interested in career growth within the organization. If you have the skill level and desire to work in this type of environment, we welcome you to apply.
