

MANUFACTURING ESTIMATOR/PROCESS ENGINEER

COMPANY OVERVIEW:

Arnprior Rapid Manufacturing Solutions, Inc., Rochester, NY, located at the Eastman Business Park in Greece, NY, is recognized as being one of the largest "all under one roof" manufacturing solution centers in the Northeast United States. We develop, and then manufacture challenging custom mechanical components and assemblies for our customers in the aerospace, medical, consumer industries.

JOB DESCRIPTION:

Being a growth-oriented, customer-focused company with AS9100/ISO9001 registrations, we are seeking an energetic Estimator/Process Engineer with proven experience in creating accurate manufacturing estimates in such areas as CNC machining, sheet metal, plastics, and tool room manufacturing. The position will require developing manufacturing processes and instructions for the shop floor personnel in order to meet or exceed our customers' satisfaction.

Working independently, as well as, interacting with others, you will be expected to:

- speak with customers, as necessary, to fully understand technical requirements
- estimate the resources needed to execute a job, e.g. material, fixturing, setup, spindle time, tooling, gaging and requirement of outsourced processes
- select suppliers to be used per customer requirements
- effectively communicating with internal staff for smooth transition of information

REQUIREMENTS:

- Proven track record estimating and developing processes for manufacturing
- In-depth experience with high-speed CNC machining techniques
- Well versed in quick setup and principals for production and prototype
- Knowledge of secondary processes, such as heat treating and various finishing processes
- Experience using CAD/CAM, Mastercam or Unigraphics/SolidWorks-

If you have the skill level and desire to work in a fast-paced, multi-customer environment, we welcome you to apply through this posting.
