

Production Machinist, Seat Manufacturing Temporary Position

COMPANY OVERVIEW:

Arnprior Rapid Manufacturing Solutions, Inc., located at the Eastman Business Park in Greece, NY, is seeking Production Machinists in its Seat Manufacturing area who will be responsible to operate production equipment that manufactures small machined parts. **This position could require working any shift and the position will continue as long as the work is available.** No benefits, other than government required, will be provided at this time. However, a fair hourly wage, along with a shift differential, will be provided.

The chosen candidate will be expected to:

- Operate assigned grinding or CNC equipment in a way that meets customer orders on time and within quality standards
- Monitor or report on inventory of parts
- Use data systems and microscopes to monitor and report the quality of the product
- Pack product and apply required identification
- Collaborate with engineering support on continuous improvement objectives.

REQUIREMENTS:

- Visual acuity and high attention to detail
- Ability to accurately collect data, database inputting and trend analysis
- Ability to learn to operate a range of highly specialized equipment through an electronic operator interface
- Experience working in a machining environment preferred
- High school diploma or equivalent
- Grinding experience preferred.
- Flexibility and willing to work shifts and overtime as business requires
